

NEW-YORK TRIBUNE.

THE NEW-YORK TRIBUNE having completed the twelfth year of its existence, on the 9th of April, signified its entrance into its teens by an enlargement of its borders, adding fully one third to its area, and which will require us henceforth to pay more for the white paper on which it is printed than all we receive from its subscribers. And, ample as our income has been, (though less ample than it has been currently reported) our expenditures for the next year must be larger than our annual income has ever yet been.

We have taken this important step not without reluctance, but upon the maturest consideration. There are thirteen of us concerned in the Tribune establishment as proprietors with one hundred and seventy more directly employed on the paper—all to be subsisted out of its current income—and this enlargement adds some \$50,000 per annum to our expenses without necessarily increasing our receipts. Yet we encounter so many complaints of the small type, too fine print, bad for the eyes, &c., that we have resolved to risk our all on the enterprise of making a paper which will satisfy many thousands who have hitherto stood aloof, and so enlarge our Subscription and Advertising as to secure us a reward for our exertions in the future equal to that we have enjoyed in the past. If we can add one-fourth to our reading matter, and present the whole in fair, clear type of good size, we believe we may nearly double our circulation; and this, though of no direct advantage to us, secures such an increase of our Advertising as will leave us nothing to desire.

The Semi-weekly Tribune was enlarged to the new size of the daily, and we urge our country friends who have no daily mail, or think they cannot afford a daily paper, to give this an examination. We always study to condense the largest possible amount of useful and interesting matter into our Weekly; yet it is physically impossible that we should print their even one-third of our letters from Europe, Asia Minor, India, California, Mexico, Central America, &c., &c. But all these are given in our semi-weekly. There is not another paper issued in the world which contains so large an amount of mainly original reading for so small a sum; and we trust that, since postage has been reduced to a mere bagatelle, there are thousands of our friends who have hitherto taken the weekly, who will henceforth take the semi-weekly. We will send a specimen to any one who, without subjecting us to expense, shall see fit to apply for it.

The Weekly Tribune will likewise be enlarged to the new size of the Daily in September next, at the close of its current volume. It will then be the largest Weekly afforded to Cuba for \$1 per annum in the world, and its white paper will cost us nearly or quite all that we receive from its Club Subscribers. We shall hope to make it pay by appropriating a small part of the new space we thus create to Advertisements, which until such enlargement, we must continue to keep within the narrowest limits. It is issued every Thursday morning, and contains most of the matter of the Daily, with more summary accounts of such Events and Proceedings as cannot be published in full. We mean that no Weekly shall surpass this in giving a full, graphic, and faithful account of what the World is Doing, whereof it is Thinking, and how it is Progressing.

Terms.

Smith & Dick's New Family Grocery, on Market street.

THEY take this method of informing the citizens of Hannibal and vicinity, that they have opened a new family grocery store on Market street, immediately north of the market house, where they intend keeping all kinds of Groceries suited to the retail trade. We intend keeping on hand all kinds of marketing, and will be pleased to see our friends at any time when they want anything in our line. We have, and will continue to keep Fresh Meats on hand during the winter season. As we have the best opportunity of purchasing Fowls, Vegetables, &c., it will be to every man's interest to call and examine, before purchasing elsewhere, as we will have everything that can be obtained at the market house during the day.
nov27th SMITH & DICK.

Improvement in Antagonistic Dentistry.

DR. S. H. ANDERSON would respectfully inform the citizens of Hannibal and country especially, that he is inserting teeth on an improved plan, which, for its adaptation to the functions of mastication, cannot be surpassed. Dr. A. will guarantee to any person who wants a set of teeth—let their jaws be ever so irregular or badly deformed from the loss of them and absorption—that he will make them a set that will antagonize or shut together as regularly and as perfectly the first time they are put in the mouth, without any grinding or altering, an their natural teeth ever did. Any person wishing evidence of this, if they will call on Dr. A. he will show them several entire upper and lower sets right here in the city, and let them judge for themselves. Particular attention given to the treatment of all diseases of the mouth, and the mal-position of the teeth.

All operations warranted, and charges reasonable.

N. B. Persons from the country wanting work done, and being unacquainted with the true merits and skill of the Dentists in this city, would do well to inquire here in the city, where they are both known.

KIDWELL'S COMPOUND FLUID EXTRACT OF Beech Drop, or Cancer Root, (OROBANCHE VIRGINICA.)

For the rapid cure of Cancer, Ulcerated Sore Throat, White Swelling, Bronchitis, Dropsy, Dyspepsia, and all Diseases arising from an Impure state of the Blood.

History of the Beech Drop, or Cancer Root.

could not arrest the disease until, under the direction of my physician, we commenced the use of the Extract of Beech Drop with him. In a very short time his general health improved and the ulcers all dried up, and he is now perfectly well.
H. KENGLA, Above Georgetown, D. C.

Another Remarkable Cure!

Certificate of Thomas Bangs.

Georgetown, Nov. 25, 1852.
Dear Sir: I was afflicted, in 1825, '29 and '30, with a Scrofulous condition of my system, in which my physician thought my lungs were materially involved. I was restricted to the simplest diet; in fact, my stomach would not digest food sufficient to give me strength. Upon consultation with another eminent medical man, my case was pronounced deep seated and incurable. My own physician ceased visiting me, and my death was fully expected in a short time. James Webster called on me, and persuaded me to use the Extract of Beech Drop. In a few days my appetite improved, and all the unpleasant symptoms about my stomach passed off. My general health was so improved by the use of it, in 3 or 4 weeks, that my weight increased from 125 to 175 pounds in twelve months. You can scarcely enter a house where they had not used it, and all acknowledge its great virtues. My family is never without it, and I attribute my good health entirely to its use. I will cheerfully give further information to any one concerning this extraordinary medicine, if they will call on me in person.
THOMAS BANGS, High St.
Mr. J. L. KIDWELL.

Georgetown, D. C., Sept. 2, 1852.
Mr. Kidwell: Believing it to be the duty of those who have been benefited by the Extract of Beech Drop to make it public, that others may enjoy its health-restoring powers. I make the following statement and certificate: My daughter, Virginia Newton, for many years was afflicted with a SCROFULOUS SORE EYE, which gradually extended over her whole body. The character of the disease was so violent that we despaired of saving her toes, and dreaded the loss of her feet. She had scabs over her entire head; and after using tar caps, and taking 8 or 10 bottles of Swain's Panacea, and a great quantity of Syrup of Sarsaparilla, none one directed James Webster to me. He was confident of the success of the Extract of Beech Drop, and I used it. In three weeks her sores were all healed; and her head, so horrible to the sight, was soon dried up. She is married now, and blessed with a healthy family; and has not had the least return of her disease since.

Yours, &c., S. NEWTON, Second st.

Another Similar Case!

Certificate of Mrs. Mary Hambaugh.

Georgetown, D. C., Sept. 2, 1852.
This is to certify that my daughter, Mary Emma, was afflicted with scrofulous sore eyes from the age of one year until she was eight years old. Her left eye was inflamed to such a degree, that the physician remarked that it would be a miracle if she did not lose it. After exerting every means in our power to subdue the inflammation, the good effects of Beech Drop in rheumatism and other diseases, induced me to use it. The effect produced was wonderful. In four or five days the inflammation all subsided; the child's general health improved, and she now exhibits the picture of good health.
MARY HAMBROUGH, Second st.

Chronic Rheumatism Cured!

Georgetown, Jan. 31, 1853.
Dear Sir: It is with a sense of gratitude, and a desire that others suffering from disease may be induced to use the Extract of Beech Drop, that I consent to give the following statement for publicity. Until last month I was a sufferer from Chronic Rheumatism, from the effects of which my health was so completely undermined and broken up, that I lost 30 or 35 pounds of my usual weight. Anxious to find some relief, I resorted to the most approved patent medicines. I used a number of bottles of Townsend's Sarsaparilla, and exhausted the list of Limiments, without any effect. My joints became now enlarged, and the pains in my limbs so excruciating, that they had to be rubbed two or three times a night. The muscles of my legs were so contracted that I presented the appearance of a man of sixty-five when I walked. In this condition, more through curiosity than belief in its good effects, I commenced the use of your Beech Drop, and in ten or twelve days the swelling about my joints had subsided; and now, after the use of three bottles, I am able to resume my business, and can walk with the same ease and comfort that I formerly did.
Yours truly, &c., ISAAC BARRETT, Second street, Georgetown.

Dear Sir: My daughter was afflicted with a severe inflammation of the legs, arms, and hips—the rheumatism, as the Doctor said, of the scarlet fever. We could not subdue the inflammation, and it commenced suppurating. The discharge was immense; and the ulcers so increased, until her body was one ulcer. The Doctor recommended your Beech Drop, which produced such a remarkable change in a few days, that it excited the astonishment of every one. She has used only one bottle, and is now well.
Yours, &c., EDWARD ROOLEN, First street, Georgetown.

Prince William Co., Va., Jan. 19, 1853.

Dear Sir: Hearing that you have prepared a concentrated Extract of Beech Drop for the cure of scrofula, skin diseases, rheumatism, &c., I have taken the liberty of addressing you, thinking it may afford you some satisfaction to know of the effects of Beech, that have come under my observation. My parents had a large family of children, several of whom were afflicted with scrofulous ulcers, and skin diseases of a very obstinate character. The best medical aid was employed for years without effecting a cure. The reputation of the Beech Drop was made known to my parents by a gentleman from the West. He procured it, and after using it two or three weeks all vestiges of the horrible disease had left the family. Hoping that others may be benefited by its wonderful properties, I am, yours, &c., M. F. LINSLEY.

Cure of Inflammation of the Palate by the use of the Beech Drop.

Certificate of Mrs. E. Mankins.

Georgetown, Nov. 25, 1852.

This is to certify that I was afflicted with severe inflammation of my palate produced, as my physician said, by cold; it increased

in violence, and at last suppurred to such an extent, that whenever I would eat, the blood would pour out of my mouth. I suffered dreadfully with it more than 12 months, notwithstanding everything was done by my physician to arrest it. I spent more than \$70 for the most approved remedies, and all of no avail. The compound sarsap., cor. sublimite, nitrate silver, were used in quantities. James Webster sent me the preparation of Beech Drop, and directed how it was to be used. In a few days my ulcers ceased to suppurate, and in a short time were entirely healed.

MRS. E. MANKINS, Fayette st.

The following certificate is given from the very best authority—John R. Jones, late Assistant Clerk in the House of Representatives. His recovery is considered extraordinary. Most of the members of both Houses of Congress visited him at the St. Charles Hotel, and expressed their astonishment at the wonders effected by the Compound Fluid Ex. of Beech Drop: Washington, D. C., April 29, 1853.

For the benefit of the public, and with none other than a desire to do good, I cheerfully state that I was afflicted with a cough and bronchial affection, from July, 1852, to March, 1853, and during that time was almost constantly confined to my room, laboring under great debility and severe cough. I had medical skill of the highest order, through whose treatment, and under the guidance of a higher than mortal Power, my life was prolonged till March, 1853, when I commenced the use of Dr. Kidwell's Beech Drop, or Extract of Cancer Root. Since that period I have taken about six bottles of the medicine, and it gives me pleasure to state that it has effected an entire cure, with the exception of weakness, occasioned by long confinement to my room. I would advise all persons similarly afflicted to try it. I consider it an invaluable medicine. The humbugs usually palmed upon the public in the shape of certificates favorable to the virtues of medicines, almost deter me from giving mine; but a sense of justice, and humanity alone, prompt me to make the above

Daguerreotypes! Daguerreotypes!!

W. P. PITTS,

Resident Daguerrean Artist, would simply remind the citizens of Hannibal and surrounding country that he is still taking pictures at his Gallery on Main street, over Willson's hardware store, and would inform them, that from recent additions to his stock, and his increased facilities, he is now prepared to take pictures in a style far superior to any heretofore taken in this city, and at reduced prices. Call and examine.

Look out for the Old Lumber Yard.

WELL-seasoned Pine Lumber suitable for all building purposes, can all times be had at the Old Hannibal Lumber Yard, which has been established 8 years. The proprietor deems it unnecessary to puff his Lumber to make it sell, or to say any thing about experience in the business except to those who never purchased from him. He would remark that an experience of eight years in the business gives the decided advantage over any other who never had experience—his Lumber has been purchased for cash and selected with great care, from the best mills in the Pinery. Mechanics and others wishing to purchase Lumber would find it to their advantage to call and examine the stock of Lumber and Shingles at the Old Lumber Yard before purchasing elsewhere. If you cannot get it for a less price, I will guarantee you can get it as low and a better article for the same money. Also, Lumber, Shingles and window sash.

Don't forget the Big Sign on the west side of Third, between Bird and Hill streets. Look out for the Sign of THOS. S. MILLER'S LUMBER YARD.

Referred according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

GREAT CURE FOR

DYSPEPSIA!

Dr. J. S. HOUGHTON'S

PEPSIN

THE TRUE

DIGESTIVE FLUID,

OR, GASTRIC JUICE.

Prepared from Rennet, or the fourth stomach of the goat, after directions of Baron Liebig, the great Physiological Chemist by J. S. Houghton, M. D., Philadelphia, Pa. "DIGEST." Such is the true meaning of the word Pepsin. It is the chief element, or great digesting principle of the Gastric Juice—the solvent of the food, the purifying, preserving, and stimulating agent of the stomach and intestines. It is extracted from the digestive stomach of the goat, thus forming a true digestive fluid, precisely like the natural Gastric Juice in its chemical powers, and furnishing a complete and perfect substitute for it.

This is Nature's own remedy for an unhealthy stomach. No art of man can equal its curative powers. It contains no alcohol, bitters, acids, or nauseous drugs. It is extremely agreeable to the taste, and may be taken by the most feeble patients who cannot eat a water cracker without the most acute distress. Beware of cheap imitations. Pepsin is not a drug. Half a teaspoonful of Pepsin infused in water, will digest or dissolve five pounds of roast beef in about two hours, out of the stomach.

Scientific Evidence!

The Scientific evidence upon which this remedy is based is in the highest degree curious and remarkable. Call on the agent and get a descriptive circular, gratis, giving a large amount of scientific evidence from Liebig's Animal Chemistry, Dr. Combe's Physiology of Digestion, Dr. Pereira on Food and Diet, Dr. John W. Draper of New York University, Prof. Dunglison's Physiology, P. of Stillman, of Yale College, Dr. Carpenter's Physiology, &c., together with reports of cures from all parts of the United States.

Pepsin in Fluid and Powder.

Dr. Houghton's Pepsin is prepared in Powder and in Fluid Form—and in Prescription vials for the use of Physicians. The powder will be sent by mail, free of postage, for one dollar sent to Dr. Houghton, Philadelphia.

Observe! This is every bottle of the genuine Pepsin bears the written signature of J. S. Houghton, M. D., sole proprietor, Philadelphia, Pa. Copy-right and Trade Mark secured. Sold by all druggists and dealers in medicines. Price, ONE DOLLAR, per bottle.
